

Keep Loudoun Beautiful

We should keep Loudoun beautiful because it's not only good for us human beings it's good for the animals. I love to go hiking with my family around a pond close to our house and along the Potomac River. We enjoy seeing ducks and all kinds of birds.

I learned about pollution in first grade, and I hate seeing litter in the woods and in the water. My mom taught me to cut up six-pack plastic rings before we throw them in the trash because she said animals can get stuck in them. I will remember this for the rest of my life.

So now I hope we can teach people and please remind them or show them how to keep Loudoun beautiful for us and the animals. Thank you.
