

## Keep Loudoun Beautiful

Do you know that animals are getting hurt because our county is not clean? Here are my ideas on how we can Keep Loudoun beautiful and protect our animals. First, we should stop buying plastic water bottles and start using reusable water bottles. Second, we should reuse newspaper, glass, and paper by recycling it, instead of throwing it in the trash. Third, we can make our county beautiful by adding flowers like daisies and roses. Next, we need to tear down old buildings and recycle them. Everyone should clean-up trash on the sidewalks because animals can get sick from the trash. Finally, we need to clean-up our blacktop at Moorefield Station Elementary. I think we should Keep Loudoun County clean so we can take pride in our county.
